FREE COLOUR UPGRADE ON EVERYTHING*

KESWICK SUPERGLAZE ARMOUR PANE GLASS

**FREE UPGRADE TO
ARMOUR PANE GLASS***

**BETTER
THAN
TRIPLE
GLAZING****

With rising energy bills why not invest in quality windows and doors that will **SAVE YOU MONEY AND **ADD VALUE TO YOUR HOME****

- ✓ Cut out 99% of harmful UV rays preventing carpets and furnishings fading
- ✓ Reduce sound transmission by up to 40% over and above standard double glazing
- ✓ Armour pane glass is better than the security specification needed for Secured By Design (this is the police approved security standard)
- ✓ Including warm edge spacer bar which is 1,000 times more efficient at reducing heat loss than a standard spacer bar.
- ✓ **Save up to £1500 on your energy bills per year †**

** better than triple glazing on some key attributes, comparison done on a specification of triple glazed unit, doesn't apply to all units.

† using the GGF energy savings calculator

KESWICK SUPERGLAZE WINDOWS

Traditional PVC windows with a double rebate that look great and stand up to the worst of weather

Two of the most important aspects when choosing your windows are aesthetics and weather tightness.

We have a wide range of window options which we can ensure will enhance the look of your property and with our double rebated PVC and integral gaskets they are all able to withstand the harsh winds and rain of Cumbria.

FLUSH WINDOWS

Keswick Superglaze use Flush windows that have been specifically designed to withstand Cumbrian weather

KESWICK SUPERGLAZE DOOR COLLECTION

Keswick Superglaze are the **NO.1** trusted and approved Rockdoor installer in Cumbria.

Trusted
ROCKDOOR
Installer.

**Design your
door online**

www.keswicksuperglaze.co.uk

As we are Rockdoors No.1 trusted installer in Cumbria we receive some unique upgrades only available to us.

The most popular addition to the doors is the purpose made extreme weather kit which further improves the rock door against driving wind and rain which is a must with Cumbrian weather.

Our integrally bonded and sealed glazing in all of our composite doors eliminates any issues with water ingress which all other composite doors face, it also improves the doors' thermal performance.

Combined with our high security mesh reinforcing, 360° aluminium reinforced inner frame and security locks you will have the most sealed and secure composite door on the market.

CUMBRIA'S ONLY ULTRA INSTALLER

REDUCE
HEAT LOSS
BY 90%

Do you want a more insulated cosy feel in your conservatory?

INSTALL OUR HUP WALLS SYSTEM

If you want to change your dwarf wall height which can transform your conservatory to an extension we can install our HUP walls to be the full height of your conservatory or just some solid corners.

The unique Keswick Superglaze warm roof system is the only solid roof system which we would fit!

Call now for a free survey and quotation.

KESWICK SUPERGLAZE SLIDING SASH

NEW ULTIMATE SLIDING SASH

New seamless run-through horns

New solid-face run-through horns with re-engineered seamless cap

Tilting sashes for easy cleaning

Staff bead

Detachable internal staff bead that finishes off the inside of the window like a true timber sash.

Ultra slim 35mm midrail

Built exactly the same way as timber

No mitred welds or fake mechanical joints, just simple, strong, joinery style butt joints like a timber original.

Chamber filler

Filling the external balance chambers to give a solid finish, while allowing the sashes to slide.

No horn option

Ultra-slim Georgian-style no horn version, opening up new conservation options.

Deep cill

Timber-like 50mm integrated deep cill option – twice the depth of standard flush cill.

New astragal bar

Brand new external astragal bar, with different milling profile for a better finish.

PASSES PLANNING IN CONSERVATION

**FREE
UPGRADE
to Ultimate 3***

≠ on most occasions, always check with your local authority.

*from ultimate 2 excluding staff bead and chamber filler

AND ARTICLE 4 AREAS[‡]

QUITE SIMPLY THE UK'S MOST AUTHENTIC TIMBER- ALTERNATIVE SASH WINDOW

In an area where sash windows are common, our sliding sash blend in perfectly – a far superior option than the “mock sash” casement windows and cheap inferior quality sashes.

The Ultimate sliding sash looks and feels just like an original timber sash window, even from close up. They are so authentic that we have received comments from customers who say that people don't know they have replaced their windows with a timber alternative. That is why they have been approved for use on projects in conservation areas.
